

# LIGHTNINGRIPPER®

# WHAT A LIL RIPPER!

Introducing the new LightningRipper® – the baby of the K-Line Ag ripper family

Little brother of the K-Line Ag ThunderRipper® and MaxxRipper®  
Available in various widths and tyne spacings

## THE PERFECT SUBSOIL RENOVATOR

- Bust hard pans & keep the moisture in
- Less horsepower requirements
- Minimal soil & pasture disturbance

Your Farm Our Focus

[k-line.net.au](http://k-line.net.au)

Cleverly engineered with tynes that are narrow but strong and reach deep into the soil. It busts hard pans to improve root penetration and plant development, and enables greater nutrient and moisture entry and retention.

- Perfect sub soil renovator
- Less HP requirements
- Heavy duty deep-ripping tynes with shear pin system can rip to a depth of 450mm
- Narrow, but strong, 27 mm tyne shank
- Roller can be used as a depth gauge and ensures the rip line is closed
- 630mm underframe clearance
- Main frame components are 100mm x 100mm x 9mm box steel
- Optional tine spacings available to suit your operation & soil type
